

ENVIRONMENTAL[®]
STANDARDS

Career Opportunities

Environmental Standards is a privately held environmental consulting firm headquartered in Valley Forge, Pennsylvania, with offices in VA, TN, NM, IL, WV, GA, OH, ME and NC. Established in 1987, the firm provides consulting expertise in the areas of environmental chemistry quality assurance, environmental project quality assurance, consulting geosciences, environmental data management, emergency response quality assurance oversight, and health & safety support.

We have an established reputation for excellence, and we have enjoyed long-term relationships with many Fortune 500 companies as we help them address their environmental, health and safety challenges.

Our approach allows businesses to focus on their core operations by evaluating pre-existing environmental needs, and developing plans to prevent liabilities down the road, all while setting the standards for innovative environmental solutions.

Company Culture

At Environmental Standards, we understand that our employees are our most valuable resource. We are proud of the ability of our staff and Professional Team to bring a wealth of fresh ideas, new approaches, strategies and solutions to our clients.

Many of our professionals have won prestigious awards, been honored by their peers, and recognized for being at the top in their field. Our staff routinely attends industry conferences and presents at those events. Our employees are also frequently members of industry organizations.

We are an 90+-person firm. Our Valley Forge corporate headquarters is a 30,000-square foot office building in a park-like setting. Employees at this and other office locations enjoy a relaxed working environment. There are a variety of company functions through the year including an annual summer BBQ, holiday parties, volleyball games, etc.

We have a deep respect for the environment, and are continuously upgrading to the latest technology to increase productivity and reduce waste. Environmental Standards endeavors to ensure our employees have the tools, training and technology to be effective in their roles.

We maintain a small-company feel, with employees enjoying an abundance of personal space where many have single private offices. A close-knit family atmosphere has always been an essential element of our corporate culture. There is a collegial environment where there is an open exchange of ideas and we enjoy spending time together in our business-casual attire. We love what we do, which is working hard for our clients, and making a difference in the world around us.
